JD1700 LED PROCEDURE LAMP

Power. Clarity. Efficiency.

Exam lighting you can rely on when the stakes are high.

The JD1700 LED Procedure Lamp delivers 120,000 LUX of high-intensity illumination to perform minor procedures and examinations with accuracy. The lightweight and compact design make it easy to position the fixture for maximal efficiency. So you can stay focused on the task at hand.

- 18 precisely positioned LED optics deliver high-level illumination and superior shadow control
- Color temperature of 5,000K and a CRI of 96+ provide excellent color accuracy to distinguish between tissues
- The ergonomic handle is off-center to maximize the light field for broader examinations

Ideal for use in:

ICU Rooms • ED / Trauma Departments • Procedure and Exam Rooms
Labor and Delivery Units • Cosmetic Surgery Center • Veterinary Surgery Center
Gynecology And Delivery • Orthopedics Examination • Dental Surgery
